

README

Introduction: This Google Drive serves as my professional portfolio, organized into three main folders: Retail_Chain_Project_BA_Anton_Samoilov, Academic Experience and Anton Samoilov Main Application Documents.

The **Academic Experience** folder contains selected university coursework that I believe demonstrates relevant skills, including MySQL projects, Java projects, and my qualification thesis and my certificates gained during bachelor's studies.

The **Anton Samoilov Main Application Documents** folder has PDF files, with my certificate confirming **B2** English proficiency, which I consider to be my current working level, the consolidated Retail_Chain_Project_BA_Anton_Samoilov_Full_Documentation_In_One.pdf, my recommendation letter from Citrus Regional Sales Manager - Vadym Popov and my CV.

The **Retail_Chain_Project_BA_Anton_Samoilov** folder represents my core Business Analyst portfolio, structured by key project phases such as Initiation, As-Is analysis, To-Be design, and related documentation.

For this project, I utilized **Camunda Modeler** for **BPMN diagrams** and actively engaged in Business Analysis **webinars** (both **Ukrainian** and **English**) to deepen **my understanding** and practical **skills**.
